

# Aastra 9133i IP Phone

Simplicity  
Flexibility  
Affordability

The Model 9133i is an advanced, fully featured multi-line IP Telephone that takes full advantage of VoIP technology by offering a flexible, interoperable solution at an affordable price.

## Key Features:

- » **Enhanced Call Management** — Large storage for personal directory, callers log, and redial list
- » **Multiple Line/Call Appearance Lights** — Support up to 9 simultaneous calls. Juggle multiple calls easily with a single press of a button
- » **Shared Line Appearances** — Q3 2006 allows 2 or 3 stations to ring at the same time so calls can be answered from any of these stations. Calling from any station delivers the 'parent' CPID
- » **Remarkable Audio** — Quality speakerphone with excellent voice clarity and delivery
- » **Protect Your Investments** — Firmware upgrades can be downloaded and installed in the field as standards develop and protocols evolve
  - Tight Integration — Support for multiple IP telephony systems including BroadWorks®, Nortel, Sylanro® and Asterisk™ SIP
- » **Less Wiring** — Built in dual 10/100 switched Ethernet ports let you share a connection with your computer. Inline power support eliminates power adapters

*Your connection to the world*
